

TABLE OF CONTENTS

INTRODUCTION	Intro-1
Definitions and Terms	Intro-5
Commonly Abbreviated Organizations	Intro-7
CHAPTER I	
REPORTS REQUIRED BY THE FEDERAL GOVERNMENT	I-1
Incident Reports	I-1
Safety-Related Condition Reports	I-2
Annual Reports	I-3
CHAPTER II	
PLANS REQUIRED BY THE FEDERAL GOVERNMENT	II-1
Operations and Maintenance Plan	II-1
Operations Plans	II-1
Operating Pressure	II-1
Pressure Testing	II-2
Tapping and Purging	II-3
Odorization	II-3
Testing for Reinstating Service Lines	II-4
Abandonment or Deactivation of Facilities	II-4
Construction Records, Maps and Operating History	II-5
Unaccounted for Gas	II-5
Maintenance Plans	II-6
Pressure Limiting Devices	II-7
Patrolling	II-8
Key Valves	II-8
Accidental Ignition of Gas	II-9
Leak Survey	II-9
Corrosion Testing	II-10
Emergency Plans	II-11
Public Education Plan	II-17

CHAPTER III	
MATERIALS AND EQUIPMENT QUALIFIED FOR USE IN PROPANE GAS SYSTEMS	III-1
Introduction	III-1
Tanks	III-1
Pipe	III-2
Tubing	III-3
Fittings	III-3
Valves	III-7
Overpressure Protection Equipment	III-8
CHAPTER IV	
CONSTRUCTION AND REPAIR	IV-1
Planning Ahead	IV-1
Pipe Installation, Repair and Replacement: General Comments	IV-2
Metallic Pipe Installation	IV-2
Plastic Pipe Installation	IV-3
Repair Methods - Plastic and Metal	IV-15
CHAPTER V	
PROPER LOCATION AND DESIGN OF TANKS REGULATORS AND METER SETS	V-1
Tanks, Regulators and Meters: Location	V-1
Tanks, Regulators and Meters: Protection from Damage	V-2
Customer Meter Installations: Operating Pressure	V-3
Service Lines: Location of Valves	V-4
Service Lines: Under a Building	V-5
Common Problems at Risers, Service Regulators and Customer Meters	V-5
CHAPTER VI	
ONE-CALL DAMAGE PREVENTION PROGRAM	VI-1

One-Call Systems	VI-1
Excavation	VI-1
Emergency Excavation	VI-2
Precautions to Avoid Damage	VI-2
Repair of Excavation Damage	VI-2
 CHAPTER VII	
OPERATOR QUALIFICATION	VII-1
 General Requirements	VII-1
Covered Task	VII-1
Operator Qualification Program	VII-1
Recordkeeping	VII-2
 CHAPTER VIII	
CORROSION CONTROL	VIII-1
 Federal Requirements	VIII-1
Procedures and Qualifications	VIII-1
Techniques for Compliance	VIII-1
Corrosion Control Requirements for Pipelines Installed After July 31, 1971	VIII-1
Corrosion Control Requirements for Pipelines Installed Before August 1, 1971	VIII-2
Coating Requirements	VIII-3
Examination of Exposed Pipe	VIII-3
Criteria for Cathodic Protection	VIII-3
Monitoring	VIII-3
Electrical Isolation	VIII-4
Test Points	VIII-4
Internal Corrosion Inspection	VIII-4
Atmospheric Corrosion	VIII-4
Remedial Measures	VIII-4
Records	VIII-4
Some Principles and Practices of Cathodic Protection	VIII-4
Basic Terms	VIII-5
Fundamental Corrosion Theory	VIII-14
Types of Cathodic Protection	VIII-16
Galvanic Anode Systems	VIII-16

Impressed Current Systems	VIII-17
Initial Steps in Determining the Need to Cathodically Protect a Small Gas Distribution System	VIII-17
Criteria for Cathodic Protection	VIII-20
Coatings	VIII-21
Mill Coated Pipe	VIII-21
Patching	VIII-22
Coating Application Procedures	VIII-22
Common Causes of Corrosion in Gas Piping Systems	VIII-23
 CHAPTER IX	
LP GAS REGULATORS	IX-1
 Basic Concepts for LP Gas Regulators	IX-1
Components of a Typical Regulator	IX-2
How a Regulator Works	IX-3
Typical positive back pressure regulator	IX-3
Relief operation	IX-3
Positive back pressure regulators	IX-4
Negative direct acting regulators	IX-4
Types of Regulator Systems	IX-5
Regulator Selection	IX-9
Installation	IX-9
 CHAPTER X	
GAS LEAKAGE CONTROL GUIDELINES FOR PETROLEUM GAS SYSTEMS	X-1
 Scope	X-1
General Discussion	X-1
Definitions	X-1
Leakage Detection	X-3
Qualification of Personnel	X-3
Reports from Outside Sources	X-3
Odors or Indications from Foreign Sources	X-3
Leakage Surveys and Test Methods	X-4
Subsurface gas detection survey	X-4
Bubble leakage test	X-5
Pressure drop test	X-6
Ultrasonic leakage test	X-6

Typically Available instruments for the Detection of Gas	X-7
Type and general usage	X-7
Maintenance of instruments	X-7
Calibration of instruments	X-7
Conversion curves	X-8
Leakage Classification and Action Criteria	X-9
General	X-9
Leak Grades	X-9
Leak Classification and Action Criteria	X-9
Follow-up Inspection	X-9
Reevaluation of a Leak	X-10
Table 3a-Leak Classification and Action Criteria-Grade 1	X-10
Table 3b-Leak Classification and Action Criteria-Grade 2	X-11
Table 3c-Leak Classification and Action Criteria-Grade 3	X-12
Records and Self Audit Guidelines	X-12
Leak Records	X-12
Leak Survey Records	X-13
Self Audits	X-14
Pinpointing	X-14
Scope	X-14
Procedure	X-14
Precautions	X-15
Appendix A-Federal and State Listings	A-1
Appendix B-Sample Forms	B-1
